

DINGO

1/8 OFF-ROAD GAS RACING BUGGY

Anno 1989: nasce il Dingo, automodello fuoristrada diretto successore del Devil. Poche ma sostanziali le modifiche: differenziali ermetici, sospensioni allargate e regolabili, un solo servoservo con uno o due servi per lo sterzo.

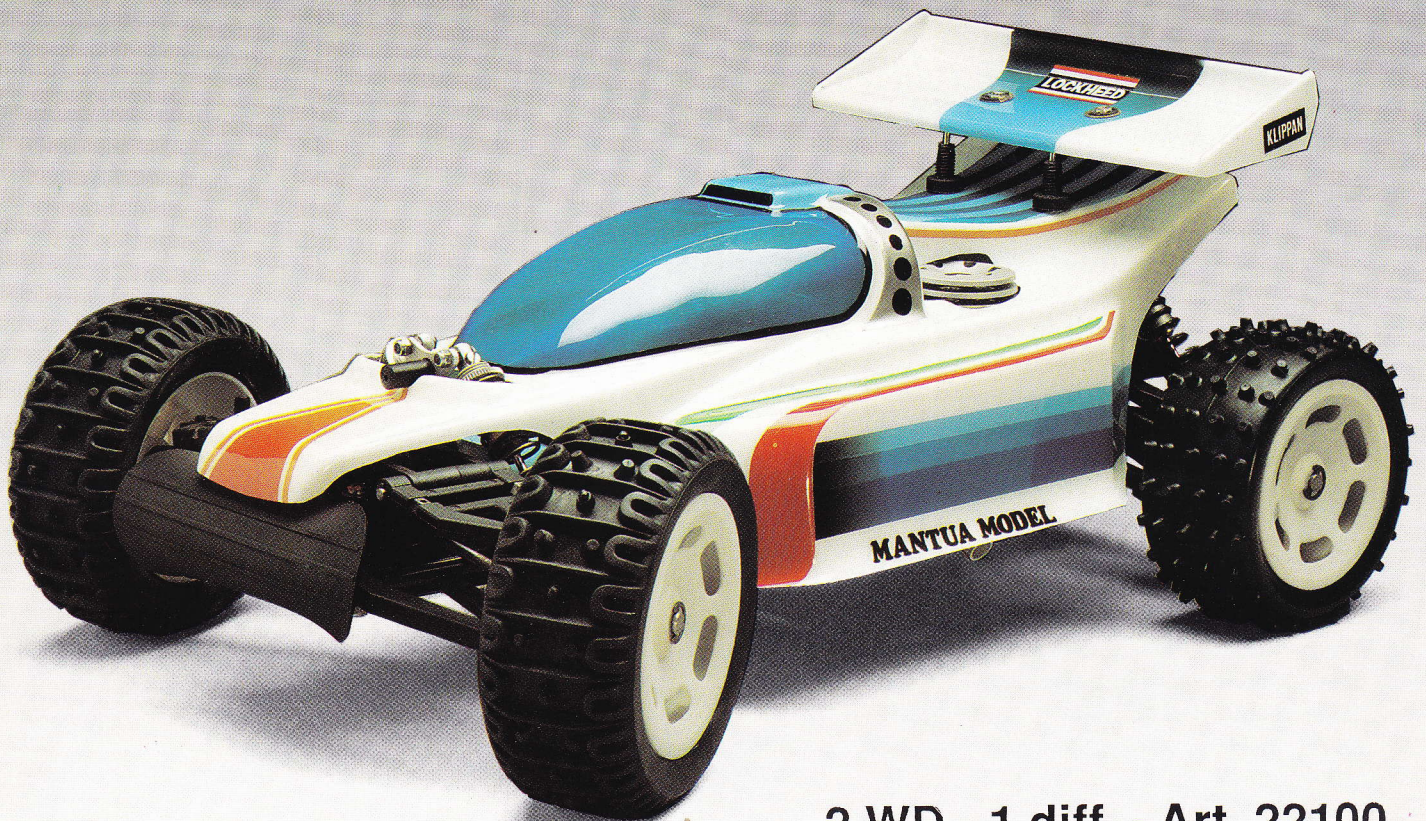

La modularità del kit è assicurata dalle versioni ad uno, due o tre differenziali.

Year 1989: Dingo is now on the market: an off-road car coming directly from the Devil. Few but important modifications launched the model: sealed differentials, large & adjustable suspensions, one servo saver for one or two steering servoes.

The model is offered in different versions with one, two, three differentials.
